

Welcome to Algebra 2 Lab!! This syllabus is designed to high some of the policies and expectations for this course. Please take the time to read through this syllabus and sign the back page. If you have any questions do not hesitate to ask!

Course Objective: The goal of this class is to be a support class for Algebra 2. This class is to help students feel more confident and be successful in their regular Algebra 2 class. There will be a combination of pre-teaching, reviewing, homework time, check ins and activities to support students and their mathematical knowledge. This class is largely defined by student need and their current Algebra 2 class.

Materials Needed: Students will just need their same materials as their Algebra 2 class. I suggest having a separate folder for notes and worksheets taken in this class.

Grades: Students' grades in this class will be made up of in class assignments, daily participation score, online assignments and attendance. Each week students will receive a participate score out of 5; 1 point for each day. I am looking for the following criteria each day to receive credit:

- On task
- Supporting classmates
- Not on their phone/electronics
- Participating

Grading Scale:

100-90% A

89.9-80% B

79.9-70% C

69.9-60% D

Below 60% F

Class Expectations: The main class expectation is respect; this leads to a classroom that is productive, supportive and builds a good community.

- Respect yourself by asking questions, being an advocate for your learning and participating
- Respect other classmates by helping each other, listening to each other and being focused in class (electronics & cell phones away)
- Respect your teacher by following classroom rules and respecting our time
- Respect the classroom

Questions?

Please feel free to contact us with any questions or concerns you might have! Email is always the best way to contact me! I look forward to help your student feel more confident in their math skills and achieve their math goals!

Please return this page signed by 9/13 as an assignment!

Student Section

- I have read and understand course expectations
- I agree that these expectations are fair and that I will do my best to be a productive and active member of this class
